

HCPC internal audit recommendations tracker

Executive Summary

This report provides the Committee with progress updates on the implementation of recommendations arising from internal and external audits. In addition, any significant quality assurance recommendations and recommendations arising from ISO standard audits will be added.

Recommendations which have been implemented have been removed from this report. The original numbering of recommendations has been retained.

Please refer to individual internal audit reports for the background to recommendations.

Previous consideration	This is a standing item considered at each meeting of the Committee.
Decision	The Committee is asked to discuss and note the report.
Next steps	The next report will be received by the Committee in November 2024.
Strategic priority	All
Risk	All
Financial and resource implications	None as a result of this paper.
Author(s)	Nicole Jones, Compliance Officer nicole.jones@hcpc-uk.org
ELT Sponsor	Alastair Bridges, Executive Director of Resources alastair.bridges@hcpc-uk.org

Recommendation / Priority (RAG)	Management response	Timescale/Resp onsibility	Completion Date/Status	Current Commentary
Where reconciliations are not undertaken between employee bank accounts vs supplier bank accounts there is a risk that payments are made into employee bank accounts which are disguised as suppliers. On an annual basis, employee vs supplier bank account checks should be undertaken across the whole organisation. Other triggers for review of employee vs supplier bank account details could include the following: onboarding of new suppliers, new or change in supplier bank details and new employee details.	This was highlighted in a review meeting, and we are in agreement with this recommendation. We will be implementing this control measure going forward to ensure that duplication of bank details in terms of both data quality and fraud prevention are addressed.	2023	June 2024	This has now marked as completed.

Internal Audit report – Regulatory Policy (first considered at Audit and Risk Assurance Committee 15 November 2023)

Recommendation / Priority (RAG)	Management response	Timescale/Resp onsibility	Completion Date/Status	Current Commentary
 Where policies, procedures and guidance are not in place and up to date there is a risk that consultations are managed inconsistently, ineffectively and do not allow for a forum whereby stakeholders can voice their concerns or thoughts. As a result, the outcomes from consultations may not be effective in impacting future policies and ensuring buy in from key stakeholders to their implementation. HCPC should develop policies, procedures and guideline which cover the below suggested areas: Strategy and Planning: Consultation strategy and planning, how, who and when the planned consultations will be undertaken including how non-cyclical consultations will be factored in the plan. Pre-consultation guidelines – things to be considered pre the consultation activity starts. Milestones: Consultation key timeliness, stage wise reporting, documentation storage. Stakeholder engagement: including pre-consultation surveys, during consultation surveys, webinars, workshops etc. Consultation reporting: Post consultation final report content, areas to consider, internal reporting process. Feedback: Post consultation feedback from internal and external stakeholders. Publishing: How to externally publish and report any policy changes. Lessons learnt from consultations and shared within the Policy team Management and oversight: Consultation with ELT and Council approval, what will be included in an ELT paper e.g., risk assessments, scope of consultation, main key stakeholders etc. 	Building on recommendations of audit and expertise in team, develop a standardised consultation procedure	Rachael	Overdue. Expected completion end October 2024.	Since the audit we have had discussions within the team about the form of the standardised consultation procedure document and the main areas it should cover. We have developed an initial draft checklist and will be using this to link to areas of existing best consultation practice, such as the 'top tips' based on Blake Morgan (our legal provider) advice and the Government's consultation principles. We have also identified further areas where we may wish to develop our own best practice guides in the future, such as around the development of consultation questions to ensure that the questions we ask are the most meaningful. This work will be ongoing as we look to continuously improve, but the main recommendation around an initial process document will be completed by the end of October.

Recommendation / Priority (RAG)	Management response	Timescale/Resp onsibility	Completion Date/Status	Current Commentary
There is risk that consultations and the respective subject matters where not compared to HCPC's strategic risk register may not align with HCPC's risk appetite. This could lead to reputational damage for HCPC. HCPC should align its risk assessment for individual consultations directly to the strategic risk register and report this in its papers to ELT and the Council. The paper should set out whether the subject matter risk sits within the risk appetite or outside of the risk appetite. Where the consultation subject matter sits outside, HCPC should consider whether additional controls are required such as what additional actions will be undertaken because of the risk assessment. HCPC can also consider the 'phrasing' of consultations to ensure appropriate for the risk and to enable stakeholder buy-in.	how we might include risk assessment and risk appetite within governance paper cover sheets across the organisation.		Due Q4 2024-25	Further to the June update, a revised version of committee and council cover sheet is going to the chair and committee chairs by end of Q2.
Where no formal lessons learnt process is in place there is a risk that learnings will not be fully identified and able to make a positive impact on future consultations and team efficiency and effectiveness. A formal process for undertaking and reviewing lessons learnt should be established.	consultation process outlined in Finding 1	Q1 2024-25 Rachael Gledhill, Head of Policy & Standards	Overdue	Since the audit we have had discussions within the team about the form of the standardised consultation procedure document and the main areas it should cover. We have developed an initial draft checklist and will be using this to link to areas of existing best consultation practice, such as the 'top tips' based on Blake Morgan's (our legal provider) advice and the Government's consultation principles. We have also identified further areas where we may wish to develop our own best practice guides in the future, such as around the development of consultation questions to ensure that the questions we ask are the most meaningful. This work will be ongoing as we look to continuously improve, but the main recommendation around an initial process document will be completed by the end of October.

This will include different pathways, authorisation systems etc. All part of a broader project to review and ensure correct partner payments across all regulatory functions, and financial controls.

Recommendation / Priority (RAG)	Management response	Timescale/Resp onsibility	Completion Date/Status	Current Commentary
 2 There is a risk that where there is limited guidance on how long CPD assessments should take, assessors may 'rush' assessments to maximise the number of assessments they undertake to maximise the fees payable. As a result, assessors may sign off inappropriate assessments, that could ultimately put patients at risk. HCPC should: a) Review the process for CPD Assessments to include more specific detail on the expected time and review work to be carried out. This should specify how long assessments are expected to take, and if considered necessary, include a specific requirement to assess the CPD record and verify that a sample of courses provided a satisfactory level of training. For example, assessors could be required to score courses or other training activity with a determined amount of CPD units to indicate their effectiveness and then confirm whether a minimum number of CPD units have been accumulated by the partner during the two year review period. b) Consider re-introducing a maximum number of assessments to verify that the level of review is consistent with policy requirements, ie that there has not been a 'light touch' review which does not delve into the details of training and make a formal assessment of its suitability. 		1 April 2024 Uta Pollmann, Partner Project Lead Vesna Maglov, Registration Manager	Revised due date 31 July 2024	Everything is on track. Vesna and Aveen are working on internal training courses for Advisors and e- learning for Partners, auditing first september. Creating guidance for assessors. Same for Registration Advisors who will be processing feedback. One for assessors, one for advisors, one for e-learning support. We will incorporate those in our refreshers training happening mid-September with first round of assessors. Introduction to HCPC is adhoc, depending when registration process takes place. Aveen and Vesna are conducting training and QA aspect for feedback. Feedback given to assessors where it's not been implemented, taking on board lessons learned from international applications, facilitating buy-in from assessors. So far, have had positive engagement from assessors regarding changes. Once the new ROA is implemented, first line checks will be introduced to capture the audit life cycle from submission to ROA.

 1, 2 The current approach to determining the control 8 3 environment in each department may mean that key aspects of the line 1 control environment is overlooked. Furthermore, lack of a Quality Framework may make it more difficult to compare the adequacy and effectiveness of controls operating across the organisation. 1. Develop a Quality Framework that contains 'pillars' to create a standard way in which to assess the control environment across departments. These pillars could include Policies and Guidance, Induction and Training, Quality Checks / Peer Review, Continuous Improvement and Performance Monitoring, as examples (Year 1). 2. For each pillar, design high level guidance setting out expectations for the expected controls to be captured within each pillar, including a good/better/best system of self assessment to support continuous improvement (Year 1). 3 Ask teams to complete a self-assessment against each of the pillars, utilising the good practice guidance. Collate these responses and use them as the basis for the population of the UAF (Year 2). 	enhancement may require resources greater than those possible under existing financial constraints. However, efforts to include these potential pillars will continue and progress to deliver against these pillars will be monitored.	complete cycle of audits to create and	date: Q4 2024-25	Pillars have been identified; currently working on formal self assessment with assurance owners. Delays due to resourcing, staff availability, and time constraints. Plans by end of year 2 (2024/2025) to have developed the next version of assurance framework. We will pilot with the new format in Q3, and Q4 will be for final development and confirmation.

	Recommendation / Priority (RAG)	Management response		Completion Date/Status	Current Commentary
5 &	 Failure to have an independent assessment of controls could result in an unreliable or inaccurate assessment of control adequacy and effectiveness, thus giving those charged with governance false assurance as to the efficacy of HCPC's system of governance, risk management and internal control. 5. Following implementation of recommendations 1-4, The Quality Assurance Team should introduce a rolling programme of reviews of team assurance maps over a three-year cycle, assessing the veracity of the self-assessment of the strength of the control environment (Year 2). 6. As part of the above process, collate information on best practice observed and use this to continually improve the good practice guidance and Quality Framework (Year 2). 	basis, to check the veracity of claimed effectiveness, and share best practise where observed and applicable to other departments.	Anna Raftery, Head of Assurance and		Revised due date following the pilot in Q3. This recommendation will be reviewed following the pilot.

	cover several topics, there is a risk that policies and procedures are not reflective of current methodologies, and tasks are not completed correctly and consistently which can leave HCPC vulnerable to fraud or error. We recommend that HCPC: a) Review the composition of the 116 policies and procedures and consider whether any can be combined (e.g. P2P process) b) Update the Adding New Users to WAP Policy, ensuring it details how changes to individuals' access and approval thresholds are made c) Create a central finance manual and policy tracker. The policy tracker should detail the date of last update (which should align to the date on the document) and detail a responsible individual for ensuring the accuracy and completeness of the policy/procedure. The tracker should	change will impact a number of the procedures & so represents a good opportunity to review the policies and procedures and determine the best way to monitor & maintain them, which will include drawing all of these	Points a) & c) Head of Financial Control 31/12/23 Point d) Head of Financial Control	1b was reported as completed to ARAC September 2023; revised due date for the rest is March 2025.	Since we have changed our finance system to BC, we will need to update all of our financial processes and procedures. We intend to collate all the finance processes and procedures through the creation of a finance process & procedures manual. This process will involve reviewing all existing finance processes & procedures. Given the system change from Sage to BC, combined with the rationalisation from 2 finance systems (Sage & BC) to one finance system (BC) most of the prior processes & procedures have been updated & this will need to be documented. We are aiming to complete this by 31 March 2025.

StatusOverdue0Not yet due1Completed1

Recommendation / Priority (RAG)	Management response	Timescale/ Responsibility	Completion Date/Status	Current Commentary
2 Where controls are not suitably robust around supplier set up and changes to bank details there is a risk that incorrect bank accounts are paid due to error or fraud, with could lead to monies being unrecoverable. HCPC should investigate adding approvals within the finance system (for both SAGE and BC) for each addition or change to bank details, with a change of bank details being put on hold without the approval of the second individual. If i is not possible to require approval within the system, HCPC should look to add electronic signatures to the sign-off of each weeks' audit log, so that individuals checking these additions or changes can be held accountable for any errors not identified.	Currently HCPC does not have the functionality on Sage to require such approvals on Sage. Given it is being replaced by BC, reconfiguring Sage doesn't represent a cost effective solution. This risk is significantly mitigated by segregation of duties & the introduction of regular sign off of the Sage audit log (of system changes) by the Head of Financial Control. It is planned for BC to be implemented using the workflow model, which would require bank account amendments to be processed by the System Accountant (once he has received appropriate documentation to make this amendment) with the changes only being made once the relevant approver has received the BC amendment request & approved the amendment on the BC system.		September 2023.	Any change on our new system BC requires authorisation by our systems accountant or financial controller. This is now marked as completed.

A long-term solution systems-based solution should be introduced which eliminates, as much as reasonably practicable, the requirement for complex monthly reconciliations and manual journal postings to HCPC's finance system. Status update from BDO following Follow up Audit June 2023: HCPC are working with KPMG to implement the new finance system having a provisional go-live date of early July 2023. However, due	Paper submitted to Exec Team stating that a retender will be undertaken to ensure we are covered by the correct CCS Framework agreement and a staggered project implementation approach, as we have an existing platform and partial implementation from which to build on. In the interim, we are close to completing our manual income reconciliations with a level of automation introduced within our files to produce expected revenue, based on our fee structure, which is dependent on the specific renewal cycle and also the type of applicant/registrant (UK or International). This is then compared against the amounts in Business Central and any differences are investigated and, thereafter, corrected within Business Central and/or Customer Engagement (CRM system). Once all corrections and adjustments are made, a final summary check will be carried out to ensure total amounts in BC versus total amounts for expected revenue match. Our reconciliation files will hold data on an individual basis, which will enable us to provide detailed backing of our recognised income and deferred income to audit. We have set a deadline for potential suppliers to submit their bids to undertake the Business Central Reimplementation Project by 10th June.	Action Owner: Mahmoud Hamed (Finance Operations Manager) Completion date: 10 June for receipt of bids, timescales Date for a single finance system - 31 March 2023.	Completed Q1 2024-25.	It has been implemented by the business and went live on 12 April 2024. This is now marked as completed.

Recommendation / Priority (RAG)	Management response	Timescale/ Responsibility	Date/Status	Current Commentary
 4 Key Risk Area 2: Guidance to registrants on standards and safeguarding risks HCPC should develop a suite of safeguarding materials aimed at assisting registrants manage key safeguarding risks which they may encounter during the course of their professional roles. These mate should be readily available to registrants through HCPC's website. I should be benchmarked against the safeguarding materials provide other healthcare professions regulators. HCPC should also consider delivering specific safeguarding guidance sessions as part of the programme of Professional Liaison Service webinars. Status update from BDO following Follow up Audit June 2023: Webinars have been developed by HCPC and attended by staff help increase safeguarding awareness across the organisation For example, the #myhcpcstandards webinar on safeguarding, which included a survey where 95% of staff rated the webinar a good and above. Work is ongoing with updating policies, procedures and guidance and subsequently making these mor accessible to staff. Revised due date: September 2023 	 als safeguarding materials. There is an opportunity to review our materials and update/improve them via the planned review of our Standards of Conduct, Performance and Ethics, due in 2022/23. Action: (1) Add to 2022/23 Policy and Comms team workplans. (2) Add safeguarding to 2022/23 Prof Liaison event programme. 	Action Owners: Rachael Gledhill (Head of Policy & Strategic Relationships), Kellie Green, (Head of Professionalism and Upstream Regulation), Tony Glazier (Communications Lead)	completed November 2023 Revised due	The updated SCPEs took effect on 1 st September. This included consequential changes made to relevant guidance and supporting materials. We provide information on safeguarding for registrants within our guidance on confidentiality and this is being reviewed as part of the next phase of our SCPEs work (which focuses on more substantive changes and additional or new guidance). The timetable for this work is in development but guidance around safeguarding will be the first priority. Launch and promotion of the new standards, including updated web content, social media posts and direct emails to registrants and key stakeholders. We will continue to promote the new standards and create new content which will include support on sexual safety.

Recommendation / Priority (RAG)	Management response		Completion Date/Status	Current Commentary
through DBS HCPC should explore the feasibility of having a formal relationship with Disclosure Scotland as it currently has with the DBS, whereby the DBS proactively alerts the HCPC of registrants who have been arrested or convicted for a serious criminal offence.	Action: The DBS covers both England and Wales and NI. We do have a relationship with Disclosure Scotland and receive information from them, but we do not have a formal MOU with them. The feasibility of implementing a formal relationship will be explored.	Dunn Completion date: 31 July 2022	date:	Disclosure Scotland (14th May 2024) have declined to sign a MoU with HCPC. This is now marked as completed.

	guidance. b) Discuss second line 'end to end' spot checks with the Quality Assurance team and	Tarek Hussein	June 2024 (same as original report)	We have produced a standardised vendor performance evaluation form, which will enable us to collate contract owners' feedback on the performance of our vendors. This has already been put in place on a quarterly basis, however, the new form and associated tracker (to collate all the various responses from the vendor performance evaluation form) will complement the existing process and allow for greater reporting of performance across the wider business. We aim to have the new forms finalised and communicated to key stakeholders by the end of September 2024.
HCPC should ensure that there is documented evidence of when supplier due diligence was undertaken to ensure HCPC only approves key and significant suppliers that align to HCPC's ways of working and expectations.	background checks including the financial health checks on an ongoing basis, particularly for long- term, high-value contracts and we will reflect this in the Procurement Policy. This process will be carried	Tarek Hussein (Procurement	November 2024.	We maintain records of our vendor background checks, including ongoing financial health assessments, particularly for long-term and high-value contracts. This process will be updated and included in the new Procurement Manual This process is carried out at time of extensions, renewals for all existing contracts.
a regular basis and where required, remove	management response for audit finding 3 (contract and supplier evaluation). We will also ensure that individuals are aware of the approved supplier list when they are looking to procure products/services,	Tarek Hussein	June 2024 (same as original report)	During the migration of data from the old finance systems to the new Business Central (BC) system, only active and approved vendors were transferred. After BC went live, the vendor list was double-checked and filtered for confirmation. Moving forward, we will evaluate vendor performance on a quarterly basis to ensure that only approved and qualified vendors remain listed. (End of September 2024)

	Recommendation / Priority (RAG)	Management response		Completion Date/Status	Current Commentary
6	On at least an annual basis, employee vs supplier bank account checks should be undertaken.	These checks are carried out as part of the monthly payroll reconciliations and communicated to Procurement to confirm that there are no duplicate bank account details between suppliers and employees. The only exceptions would be the employee expense reimbursement process, whereby employees have to be set up as suppliers in order to have their expenses covered - this would be identified as part of the reconciliation process.	Tarek Hussein (Procurement Manager, Finance)		Checks are carried out by Payroll in Finance Team. Procurement will be notified if there are any conflicts or duplications flagged.
	. HCPC should ensure that: a) On at least an annual basis employees are reminded to review and update their Conflict of Interest (COI's) declarations. b) There is documented evidence for each procurement activity that potential conflicts of interest have been considered.	all tender panel members and relevant stakeholders during the process, regardless of the contract value. These forms are stored as part of the tender records		November 2024.	Procurement is currently requesting all tender panel members and/or contract owners to complete their conflict of interest forms prior to the tender evaluation process and have them signed off and attached to the releveant tender document. This process will be spotted in the new Procurement Manual.

matte may r reputa HCPC directl and th risk si the co wheth action also c	rs where not compared to HCPC's strategic risk register	updated guidance and templates. They are being reviewed on a meeting taking place 24 June 2024. The results of the review will go back to Governance.	Governance will be sending out a draft cover sheet and guidance to get feedback with a view to launching this before the next Council and Committee meetings in May/June 2024. We are going to use the same cover sheet for ELT too and it does include the statement of risk appetite.		

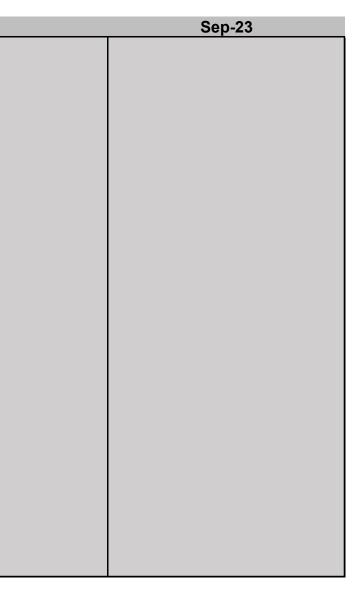

Γ

3	 Where no formal lessons learnt process is in place there is a risk that learnings will not be fully identified and able to make a positive impact on future consultations and team efficiency and effectiveness. A formal process for undertaking and reviewing lessons learnt should be established. 	In progress, formal reflections paper developed re SCPES review to provide a basis for other learning	In progress, no new updates.	
	 Staff may be over or underutilised within the Policy team, which may impact staff well-being and overall team performance. The Policy team should use the work planner to include staff assigned to consultations to demonstrate workloads and where alternative approaches to the current workforce may be required. (As per recommendation 1, a formalised approach should be put in place for work planning and work force management.) 	2024-25 work plan includes staff assigned to consultations.	In progress, no new updates.	

	Partners Review	Jun-24	Mar-24	Nov-23
1	 Where there are high levels of manual intervention required for the calculation of partner payments, and limitations on the second line assurance checks completed by areas such as Finance, there is a risk that payments are made incorrectly, and resources are not working efficiently. HCPC should: a) Review the process for calculating cancellation payments within the FtP directorate, and the methods of calculation. Consider whether the process can be redefined and updated to be more efficient. b) Ensure where practicable, all requests for payment which are derived from data in the Nexus system, include supporting documentation. Finance should then verify the payment charge is valid and has not been previously paid. c) On a regular basis, assess whether upgrades can be made to its business systems to allow an automated transfer of payment data from the CRM system to the WAP system, which would remove the need for manual Excel spreadsheets as a delivery mechanism. 	that will alert the team of any cancellations and prompting them to send an email to either the cancellation inbox or teams channel. With regards to	Finance check processes have improved after working with FTP to gain a better understand of the Nexus report and the data shared. A specific Inbox was created to communicate cancellations between FTP and the finance department to add an additional layer of control.	

Partners Review	Jun-24	Mar-24	Nov-23

long CPD assessments should take, assessors may 'rush'	•	and will pilot the new form shortly with	
assessments to maximise the number of assessments	agreed to partake in the pilot and provide		
they undertake to maximise the fees payable. As a result,		feedback. After the pilot, the new form	
assessors may sign off inappropriate assessments, that	0 01	can't be introduced until 31 July as we	
could ultimately put patients at risk.		need to wait for a gap in the CPD cycle	
	and 1 September 2024. The project is on track.		
HCPC should:	ITACK.	reflect the changes.	
a) Review the process for CPD Assessments to include more			
specific detail on the expected time and review work to be			
carried out. This should specify how long assessments are			
expected to take, and if considered necessary, include a			
specific requirement to assess the CPD record and verify that a sample of courses provided a satisfactory level of training.			
For example, assessors could be required to score courses or			
other training activity with a determined amount of CPD units			
to indicate their effectiveness and then confirm whether a			
minimum number of CPD units have been accumulated by the			
partner during the two-year review period.			
b) Consider re-introducing a maximum number of			
assessments that an assessor can undertake in a specified			
period.			
c) Undertake periodic spot checks on CPD assessments to			
verify that the level of review is consistent with policy			
requirements, ie that there has not been a 'light touch' review			
which does not delve into the details of training and make a			
formal assessment of its suitability.			

Unified Assurance Framework	Jun-24	Mar-24	Nov-23
 Unified Assurance Framework The current approach to determining the control environment in each department may mean that key aspects of the line 1 control environment is overlooked. Furthermore, lack of a Quality Framework may make it more difficult to compare the adequacy and effectiveness of controls operating across the organisation. 1. Develop a Quality Framework that contains 'pillars' to create a standard way in which to assess the control environment across departments. These pillars could include Policies and Guidance, Induction and Training, Quality Checks / Peer Review, Continuous Improvement and Performance Monitoring, as examples (Year 1). 2. For each pillar, design high level guidance setting out expectations for the expected controls to be captured within each pillar, including a good/better/best system of self assessment to support continuous improvement (Year 1). 3 Ask teams to complete a self-assessment against each of the pillars, utilising the good practice guidance. Collate these responses and use them as the basis for the population of the UAF (Year 2). 	The Q1 Risk and Assurance meetings are happening in June and July, so will have fuller update for Q2.	Q4 risk & assurance meetings are taking place currently. A review of the pillars will take place once these are completed, in order to assess if these are adequate. In Q1 2024-25 a self assessment exercise will be run against these pillars,	As the R&A meetings continue more

Key Financial Controls Follow up	Jun-24	Mar-24	Nov-23	Sep-23
1 Where there are a large number of policies and procedures which are not logged in a policy tracker and cover several topics, there is a risk that policies and procedures are not reflective of current methodologies, and tasks are not completed correctly and consistently which can leave HCPC vulnerable to fraud or error. We recommend that HCPC: a) Review the composition of the 116 policies and procedures and consider whether any can be combined (e.g. P2P process) b) Update the Adding New Users to WAP Policy, ensuring it details how changes to individuals' access and approval thresholds are made c) Create a central finance manual and policy tracker. The policy tracker should detail the date of last update (which should align to the date on the document) and detail a responsible individual for ensuring the accuracy and completeness of the policy/procedure. The tracker should detail areas covered within policies and procedures. d) Update the Finance Induction Slides to align to the above changes as well as changes from SAGE to Business Central (BC).	 A: We are looking at our policies in order to consolidate them once the year-end activities for 2023-24 are completed, which will be from August 2024 onwards. B: This action is now not applicable as we have implemented our new finance system, Business Central as of 12th April. This is a standardised, out-the-box solution, which has clear how-to guides via the Microsoft Dynamics website. C: Similar to the comments for point (A), we are looking to update this from August 2024. D: This is currently in progress and will be in effect from the end of June 2024, which is when the quarterly inductions sessions will take place, to align with Business Central. These will also be updated in line with policy changes from August 2024. 	A&C: Once Business Central is implemented & the audit for 2023-24 is completed this can be actioned. D: Once Business Central is implemented & the audit for 2023-24 is completed this can be actioned.	The Commentary is repeated from September's update. A&C: Once Business Central is implemented & the audit for 2022-23 is completed this can be actioned. D: Once Business Central is implemented & the audit for 2022-23 is completed this can be actioned.	A&C: Once Business Central is implemented & the audit for 2022/23 is completed this can be actioned. B: This is now closed as we have assigned John Du as the gatekeeper for this. D: Once Business Central is implemented & the audit for 2022/23 is completed this can be actioned.

Safeguarding controls	Jun-24	Mar-24	Nov-23
 Key Risk Area 2: Guidance to registrants on standards and safeguarding risks HCPC should develop a suite of safeguarding materials aimed at assisting registrants manage key safeguarding risks which they may encounter during the course of their professional roles. These materials should be readily available to registrants through HCPC's website. This should be benchmarked against the safeguarding materials provided by other healthcare professions regulators. HCPC should also consider delivering specific safeguarding guidance sessions as part of the programme of Professional Liaison Service webinars. 	Work to update supporting guidance and materials to the SCPEs underway. Priority focus on updating current materials in line for standards taking effect in September 2024. Potential additional materials on safeguarding being scoped for next phase.	RG: Work on supporting guidance and materials around SCPEs being scoped. Implementation of SCPEs including comms underway leading to Q3 23-24 when new standards take effect. TG: Comms support will be provided when it comes to promoting the new standards and guidance, and creating content to support understanding.	RG: Revised SCPEs approved by Council in October and published. Work on supporting guidance and materials on track for Q4. KG: We have now completed the ask from this audit TG: Comms support will be provided when it comes to promoting the new standards and guidance, and creating content to support understanding.
	Disclosure Scotland (14th May 2024) have declined to sign a MoU with HCPC.	Latest feedback is that it is still up for consideration by their Executive Management Team, although there seems to be a lack of enthusiasm to pursue an MoU.	Disclosure Scotland have advised that a decision was being escalated in early October 2023. HCPC is still awaiting feedback. A revised completion date is December 2023 at the earliest, should they decide to proceed.

Sep-23

RG: Consultation on the SCPEs did close in June and the revised standards will go to October Council. Supporting guidance will be produced as planned in Q4.

KT: Five HCPC #myhcpcstandards have been delivered and evaluated. Evaluation data is available - which looks at the professions we reached, the number of attendees, hits to the videos on our website, changes in their level of knowledge.

New HCPC material is about to be launched on our website - Comms will hold the list of what we are adding - fact sheets, videos.

Safeguarding has been covered in sessions that the Professional liaison team delivers - it is incorporated in scenarios used and particularly in the monthly joining the UK workforce sessions for international registrants.

TG: Comms support will be provided when it comes to promoting the new standards and guidance, and creating content to support understanding.

Last contact with Disclosure Scotland was in July 2023 where a decision on whether to pursue an MoU has yet to be taken. Chased again, early September 2023,
