The following summarises the key outcomes of the Approvals event and provides reasons for the decision.

RECOMMENDATIONS

SET 2. Programme admissions

2.2.5 The admission procedures must apply selection and entry criteria including Accreditation of Prior Learning and other inclusion mechanisms.

Recommendation: The documentation should be revised to ensure that the procedures for Accreditation of Prior Learning are clearly articulated and transparent to prospective students.

Reason: The documentation does not currently include procedures for Accreditation of Prior Learning.

SET 3. Programme management and resource standards

3.6 A programme for staff development must be in place to ensure continuing professional and research development.

Recommendation: The policy for staff development, both within the school and the wider university, should be more clearly demonstrated.

Reason: The current staff development opportunities available for staff, and the support that they received to take them up, was not clearly articulated in any of the documentation.

3.11 Throughout the course of the programme, the education provider must have identified where attendance is mandatory and must have associated monitoring mechanisms in place.

Recommendation: The policy for attendance monitoring should be clearly articulated in the documentation.

Reason: The procedure for monitoring attendance is currently unclear.

SET 4. Curriculum Standards

4.7 Where there is inter-professional learning the profession specific skills and knowledge of each professional group are adequately addressed.

Recommendation: The University should build upon its unique portfolio of programmes and setting by developing with some urgency an inter-professional

learning programme for all four disciplines under review and within the University as a whole.

Reason: There is currently little evidence that inter-professional learning takes place. The wide range of programmes offered and the unique physical location of all the programmes in the same building provide very good opportunities for this situation to change.

COMMENDATIONS

- **The development of the practice placements database for Wales is an example of best practice.**
- **The development of non traditional practice placements in occupational therapy to support professional innovation and the issues around placement capacity is excellent.**
- **The integrated model of curriculum delivery, which underpins the holistic occupational basis for professional practice, is commended.**
- **The collaborative nature of the teams across the three institutions is commended.**
- **The quality of the documentation was greatly appreciated by the Visitors.**

The nature and quality of instruction and facilities meets the Standards of Education and Training.

We recommend to the Education and Training Committee of the HPC that they approve this programme (subject to any conditions being met).
